

SAN MATEO- FOSTER CITY SCHOOL DISTRICT

End of School Year Message from Dr. Rosas, Superintendent

Thursday, June 18, 2020

Dear San Mateo-Foster City Staff and Families,

As the school year comes to a close, I would like to recognize this milestone and to express my gratitude. The last three months have been extraordinarily difficult, taking great effort from everyone, and I am thankful for our work together as a community.

Congratulations to our students who adapted to rapid and dramatic changes to their daily routines at school. Thank you to the families who created spaces for students to learn at home, helped them with daily schedules and learned new technology while working themselves and caring for other family members. And thank you to our administrators, teachers and staff who never expected to be teaching or working anywhere but in their classrooms or from their offices, but who did so anyway to enable our students to keep learning.

As we move into summer, there is still much to accomplish. Our Reopening Teams are immersed in planning for fall and will bring preliminary options to our Board tonight. We will send you a follow up letter with information from the Board Meeting and share answers to the most frequently asked questions early next week. We will continue to be in touch with you regularly throughout the summer.

Sincerely,
Dr. Joan Rosas
Superintendent
