Student Transportation Services

Addendum #4

June 4, 2019

Item 1 – Who provides car seats and harness restraints, if the contractor can the district advise how many of each currently being utilized?

**In the Bid Form on Page 22, Item II, there are places where the vendor can include “Additional Services.” Consider placing a line item cost for each harness restraint and a separate line item cost for a car seat.**

Item 2 - District Owned Fleet – Can we be provided with the model year, if the bus is equipped with air conditioning and fuel type for each district owned bus?

**See attached Exhibit H. The only District busses that are air conditioned are bus 28, 30 and 31.**

- a. Can we be provided with the current contractor fleet data, to include; manufacturer, bus type, seating capacity, fuel type, if equipped with air conditioning and number of wheelchair positions?

**These documents are District documents and we can make them available only through a California Public Records Request Act. These kinds of request are only handled through the Superintendent’s Office. Please contact Ms. Ana Almen ([aalmen@smfcsd.net](mailto:aalmen@smfcsd.net)).**
