SCHOOL DISTRICT

# LETTER OF INTRODUCTION

In our community, we celebrate the "Live, Lead, and Learn" motto. For this motto to drive our work, all children must benefit from a public education system that meets their needs.

Luckily, our schools and district offices are staffed by amazing educators who care deeply about children and utilize their impressive skill sets to educate and inspire. In recent years, our public systems have been rocked by the covid pandemic which challenged us to do our best work in spite of facing unprecedented obstacles. The question remains: "How are our kids doing?"

The L3 (Live, Lead, and Learn) Report aims to answer this question. The report also aims to answer a question most parents pose and never get answered: Why are students achieving or not achieving?

The State of California debuted a School Dashboard in March 2017 and many stakeholders are not familiar with the information. California publishes an easy to use website for state test scores. Both the Dashboard and this website are powerful tools but require the user to understand how to access the data. The district's L3 report tells our story. We have collected and analyzed student data to craft a message for our community to contemplate and debate. We believe in transparency and accountability. Our district expects to have increased student achievement every year, and the L3 Report creates a permanent record of the district's annual progress. We believe in celebrating the strategies that are working well. The L3 report allows us to highlight our greatest strengths.

The L3 report introduces the district's internal test scores. Included are charts for grade level reading starting in kindergarten, as well as attendance and discipline data. Most importantly, we show the relationships between internal data and state test score data. We conducted a Root Cause Analysis to identify our path forward in terms of solving our challenges. We have a responsibility to tell our story and connect that saga to our Strategic Plan.

## TABLE OF CONTENTS

4 EXECUTIVE SUMMARY

6 FRAMING THE  
L3 REPORT

12 ROOT CAUSE #1:  
EARLY LITERACY

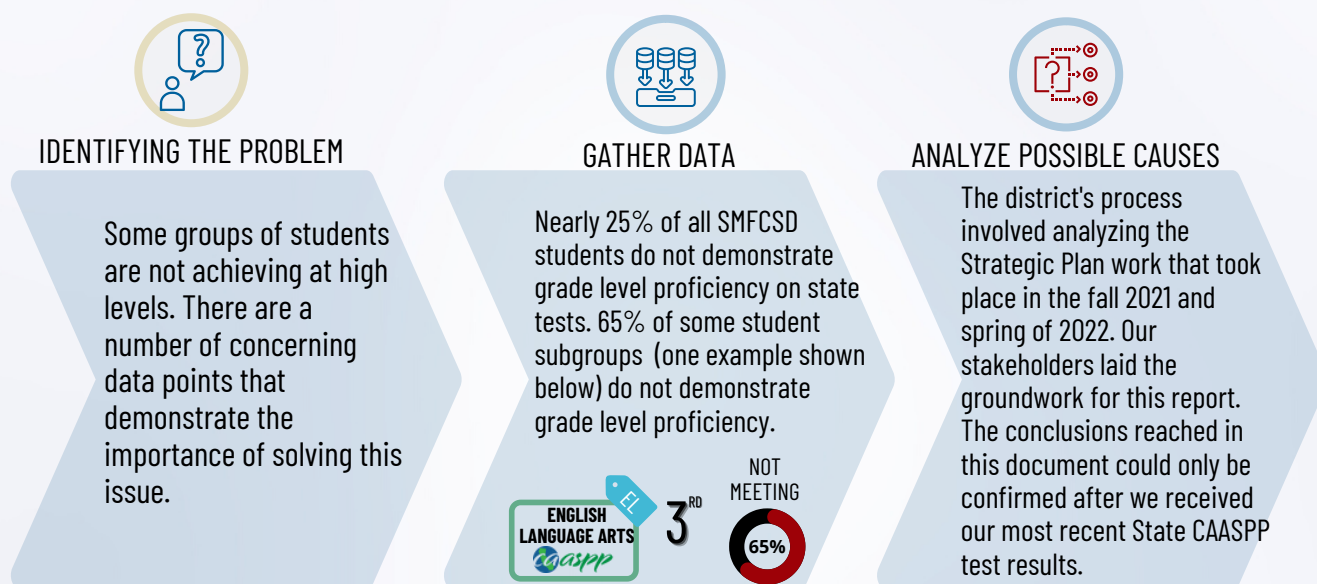

19 ROOT CAUSE #2:  
PRESCHOOL ACCESS

27 ROOT CAUSE #3:  
SYSTEMIC  
INTERVENTION

● APPENDIX

The school district engaged in a process to amass student data since September of 2021 for this report. Through focused data collection procedures, we created a report in conjunction with the 2021-2022 State CAASPP test results. The district implemented a Root Cause Analysis to determine the genesis of problems in order to solve them. As a result of this analysis, we will be able to implement systematic measures to break the annual recurrence of predictability of low outcomes for marginalized students.

## ROOT CAUSE ANALYSIS PROCESS

## ROOT CAUSES

Our in-depth analysis conducted during the Strategic Plan process informed our understanding of how to fix, compensate, or learn from likely issues related to root causes. Now that we have 2021-2022 state CAASPP test scores, we can apply learnings from this analysis to systematically prevent future issues or to replicate successes. With our 2021-2022 test scores in hand and our recently completed Strategic Plan complete, we can now modify core practices and systemic structures to address our challenges.

### Root causes identified in this report:

**Early Literacy**  
**Access to Pre-School**  
**Strategic Interventions**

## RESPONSES TO ROOT CAUSES

### ROOT CAUSE #1: EARLY LITERACY

Our Strategic Plan analysis led the district to adopt a vast, interdisciplinary body of scientifically-based research about reading and issues related to reading and writing referred to as "Science of Reading." After years of Reading Recovery and Fountas & Pinnell reading program implementation, the district selected the PAF (Preventing Academic Failure) Program, which is Orton-Gillingham based. The district also adopted the web-based Footsteps 2 Brilliance at home reading program.

### ROOT CAUSE #2: PRE-SCHOOL ACCESS

Our Strategic Plan analysis led the district to create a goal that identified "Pre-K through 8th grade" academic achievement as our top priority. Even prior to having our 2021-2022 CAASPP test results, our Strategic Plan team knew that access to pre-school was a key factor in predicting future academic success. Our data confirms that access to pre-school can help greatly reduce the academic achievement gap.

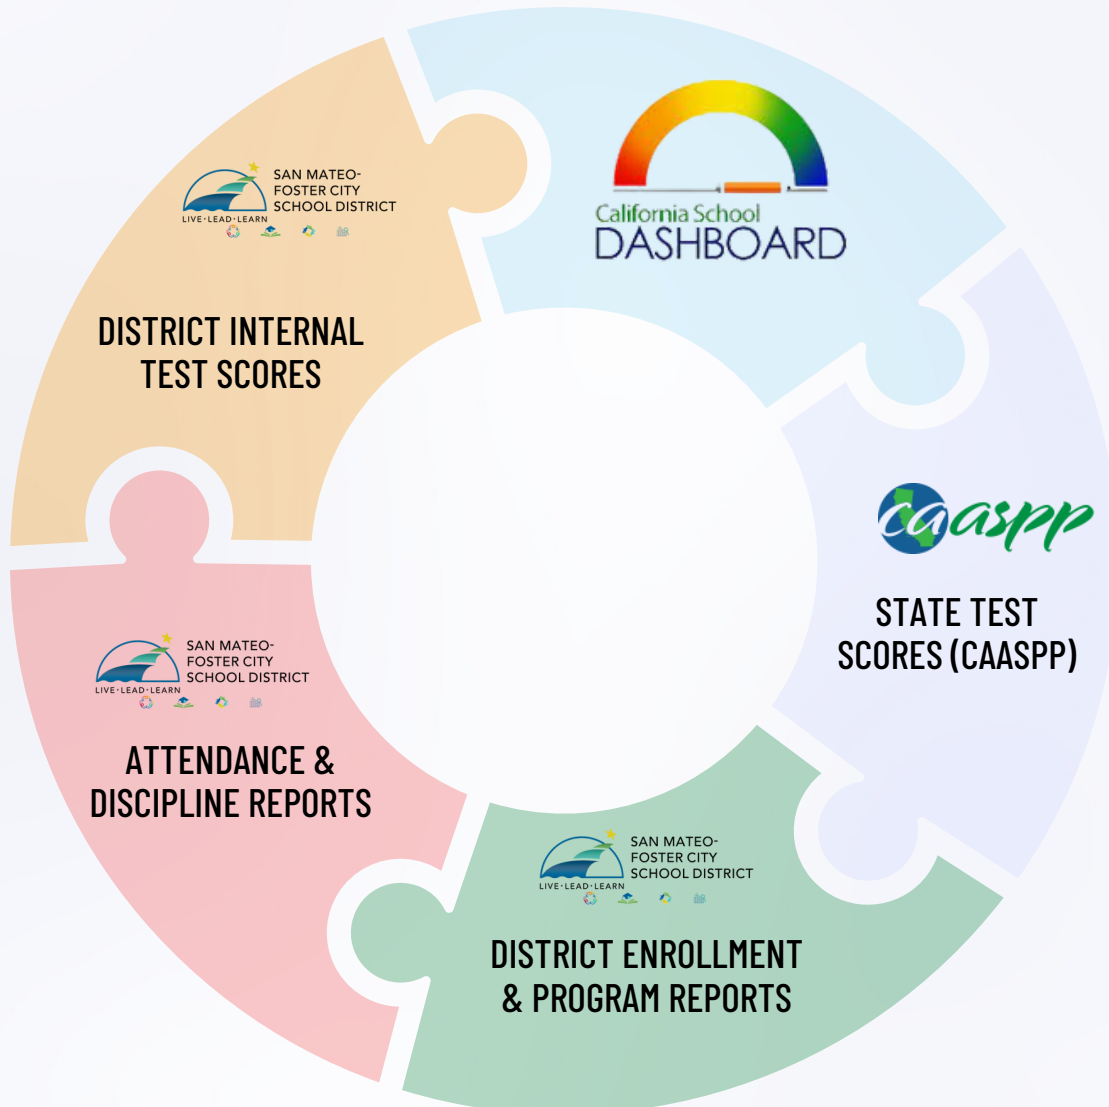

### ROOT CAUSE #3: SYSTEMIC INTERVENTIONS

Our analysis shows that achievement gaps for student groups (Latinx, Students with Special Needs, African-American Students, and others) exist similarly across all campuses. We needed to identify districtwide interventions and provide progress monitoring to determine effectiveness. A districtwide "Math Boost" pilot program was implemented in the fall of 2021 to great success. Our initial implementation of ST Math and Footsteps 2 Brilliance also resulted in significant growth for underserved student groups in Spring/Summer 2022. Our plans for the upcoming year involve the implementation of districtwide small group literacy instruction, Footsteps 2 Brilliance, ST Math, ELA Boost, Math Boost, innovative tutoring, and a comprehensive summer school.

## WHAT IS BEING INCLUDED AND ANALYZED IN THE L3 REPORT?

A key element of the report is the breadth of the data provided. As a district, we have the opportunity to inform and engage our stakeholders through the L3 process. We are taking a broad-based approach in data analysis as far back as 2017-2018 in an attempt to identify patterns. These patterns help to inform our Strategic Plan actions and services.

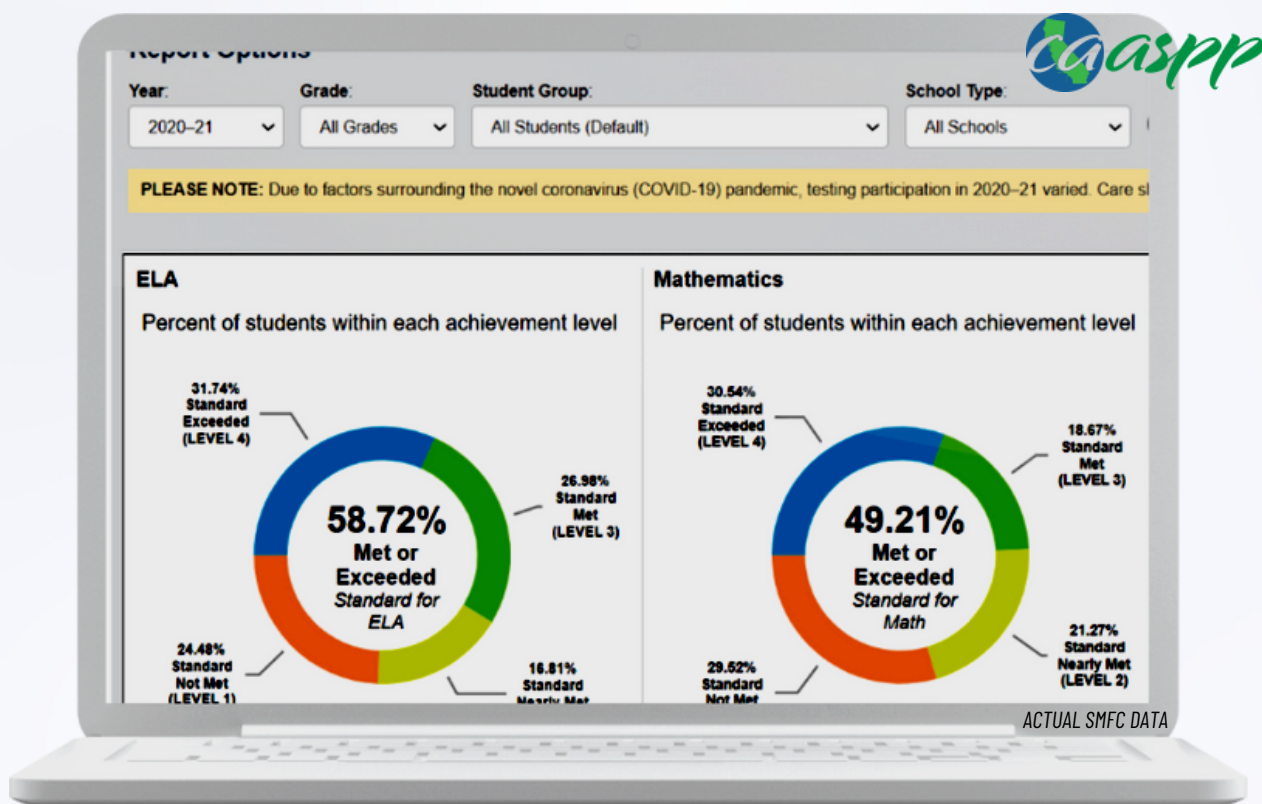

## STATE CAASPP TESTS

### SMARTER BALANCED SUMMATIVE ASSESSMENTS FOR ELA AND MATHEMATICS

The Smarter Balanced Summative Assessments for ELA and mathematics are an annual measure of what students know and are able to do using the Common Core State Standards for English language arts/literacy and mathematics. The purpose of the Smarter Balanced Summative Assessments is to assess student knowledge and skills for English language arts/literacy (ELA) and mathematics, as well as how much students have improved since the previous year. All students in grades 3 through 8 and grade 11 take the Smarter Balanced Summative Assessments unless a student's (IEP) designates the California Alternate Assessments.

### STUDENT GROUPS

Reports are available for all CAASPP assessments for "All Students" and disaggregated for student groups using the following criteria: All Students; Disability Status; Economic Status; English-Language Fluency; Race and Ethnicity.

## WHAT DO STATE TESTS MEASURE?

Let's take a closer look at the "performance areas" for CAASPP tests. These ELA and Math tests analyze student performance in seven different "performance areas".

### ENGLISH LANGUAGE ARTS

**READING**

**WRITING**

**LISTENING**

**RESEARCH**

### MATHEMATICS

**PROBLEM  
SOLVING  
&  
DATA  
ANALYSIS**

**CONCEPTS  
&  
PROCEDURES**

**COMMUNICATING  
REASONING**

## WHEN DO STUDENTS START TAKING STATE TESTS?

Since students do not take state tests in grades Pre-K through 2nd grade, it is important for our district to have internal metrics to determine who is learning and who is struggling to learn. Even in 3rd grade, students only take the state CAASPP test in the final month of the school year, meaning that we don't have a comparison (across districts) for how our students are performing for almost 5 full school years.

**Early intervention is a high priority.**

GRADE LEVEL	ENGLISH LANGUAGE ARTS	MATHEMATICS
TK	⊗	⊗
K	⊗	⊗
1	⊗	⊗
2	⊗	⊗
3	caaspp	caaspp
4	caaspp	caaspp
5	caaspp	caaspp
6	caaspp	caaspp
7	caaspp	caaspp
8	caaspp	caaspp

## SMFCSD DATA INTERPRETATION QUESTIONS

Many school districts in California receive test score data and internally analyze the data. These districts make crucial decisions about programs and services based on the analysis of the data. As a data-informed district, when we receive tests scores from the state of California, we enter into a "season of analysis."

Our Educational Services Department works to analyze data across:

Whole District  
By School Site  
By Ethnicity  
By Disability Status  
By Economic Status  
By Language Proficiency

We are now also starting to "merge the data" across multiple years and data sources. For example, we have the capability to analyze how many students miss more than 15 days of school and connect that data to categories listed above. We are able to analyze how students who participated in the Annex program or the state preschool program fared on state assessments.

DOES OUR INTERNAL READING DATA CORRELATE TO STATE ELA DATA?

DO THE SAME STUDENTS SCORE "NOT MEETING" STANDARDS IN BOTH SUBJECTS?

DO SOME STUDENT GROUPS DO WORSE THAN OTHERS?

HOW DID STUDENTS WHO ATTENDED PRE-SCHOOL FARE VERSUS STUDENTS WHO DIDN'T ATTEND PRE-SCHOOL?

***Ultimately, our goal is to understand how a student came to "Exceed Standards" or "Not Meet Standards," Consequentially, we will build programs to interrupt the predictability of these outcomes. If we can understand what correlates to "meeting" and "exceeding" standards, then we can design programs to produce that success to a greater extent each year.***

## HOW DID OUR STUDENTS DO DURING THE PANDEMIC?

It's difficult to say. **The district did not implement internal, districtwide math or reading assessments for two years.** Normally, students take internal tests throughout the year and all students take state tests at the end of the year.

Due to the pandemic, the district did not test, collect, or analyze test results from March 2019 through June 2021. The district did have students voluntarily take the state tests in May 2021; however not all students took the test and many took the test at home.

## HOW DID OUR STUDENTS PERFORM IN THE 21-22 SCHOOL YEAR?

SMFCSD implemented districtwide reading and math tests in 2021-2022 to create baseline results. **We elected to administer Fall, Winter, and late Spring assessments to track growth and progress.**

The data shows that about 1/4 of all students starting in Kindergarten are not learning to read at grade level. It appears that these students fall behind early and remain behind in future years.

It is difficult to analyze longitudinal data after a pandemic because all students had such different experiences during distance learning. Our students and parents have told us this. Nonetheless, we received substantial funding intended to interrupt the learning loss and we have utilize these funds to support learning hubs, after-school tutoring, new online academic programs, and summer school.

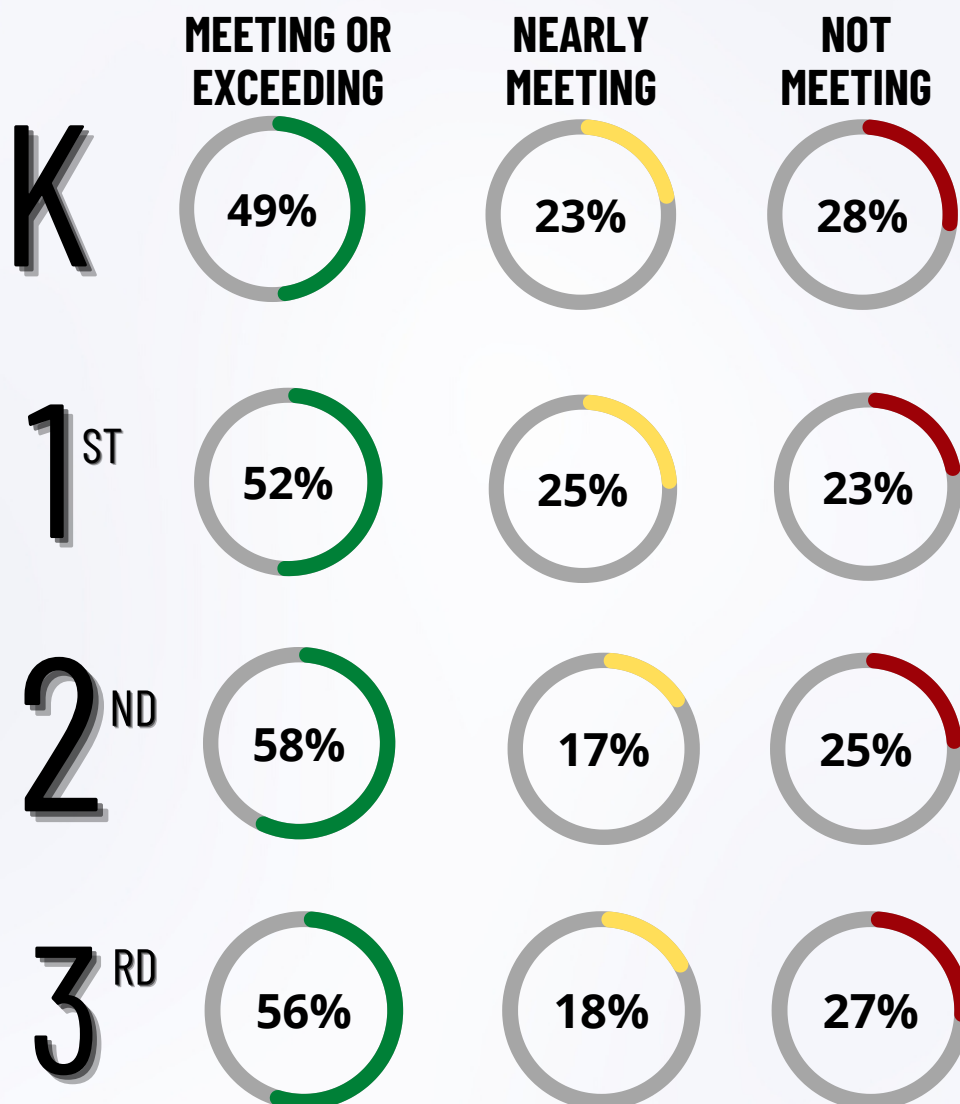

# ROOT CAUSE #1

## EARLY LITERACY

## INTERNAL READING SCORES

Our late Spring reading assessment scores are similar across grade levels. Each grade level has approximately 25% of kids not reading at grade level. We believe that students who begin school reading below grade level are likely still reading below grade level each subsequent year. If true, then we would be able to track progress every time we implement a district reading assessment to track growth and to measure "distance from grade level".

FOUNTAS & PINNELL  
END OF YEAR READING SCORES

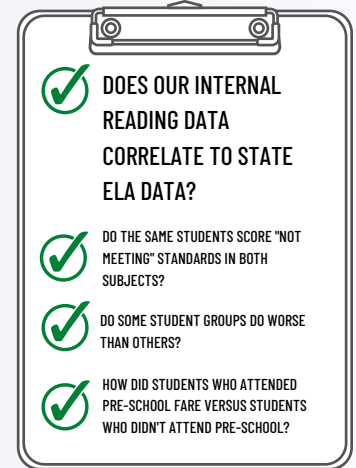

DATA INCLUDES:  
ALL SCHOOLS  
ALL STUDENTS WITH IEPs

ALL STUDENT GROUPS  
ALL ENGLISH LANGUAGE LEARNER LEVELS

## INTERNAL READING AND STATE TEST CORRELATION

Our continued test score analysis led us to investigate the possibility that a student's internal reading score could correlate to their state CAASPP ELA and Math test scores. If this were the case, then the district would be well served to address early literacy as a strategy to promote readiness for the 3rd grade state CAASPP tests.

PRELIMINARY STATE TEST SCORES

## STATE MATH TEST QUESTION SAMPLES

Our state math test questions are written at grade level. Therefore, if a student struggles to read at grade level, they will likely struggle to demonstrate what they know in math. They may, in fact, understand the math standards but are impeded from demonstrating what they know because of their relative low reading ability.

Students who read at or near grade level are far more likely to exhibit their math skills on our state tests.

### SAMPLE 3RD GRADE TEST QUESTIONS

4

Which expression is equal to  $6 \times 3$ , and why?

- Ⓐ  $6 + 3$ , because the numbers are in the same order
- Ⓑ  $6 \div 3$ , because division and multiplication are inverse operations
- Ⓒ  $3 + 6$ , because the order of the numbers does not matter in addition
- Ⓓ  $3 \times 6$ , because the order of the numbers does not matter in multiplication

4

GUEST

Objects	Length (in)
Pen	$5\frac{1}{2}$
Scissors	$7\frac{3}{4}$
Stapler	$7\frac{1}{4}$
Calculator	$6\frac{1}{2}$
Notepad	$8\frac{1}{4}$

Students pulled classroom objects from a bag and measured them in inches. They used this data to make a line plot. Complete the line plot that displays the data.

## ELA ACHIEVEMENT IS HIGHLY CORRELATED TO MATH ACHIEVEMENT

Our data shows a strong correlation between ELA and math achievement.

421 third graders **exceeded standards** in English Language Arts. Below is a visual that shows how these 421 students scored on their state Math CAASPP exam.

### 401 OUT OF 421 MET OR EXCEEDED STANDARDS IN MATH

### 18 OUT OF 421 NEARLY MET STANDARDS IN MATH

### 2 OUT OF 421 DID NOT MEET STANDARDS IN MATH

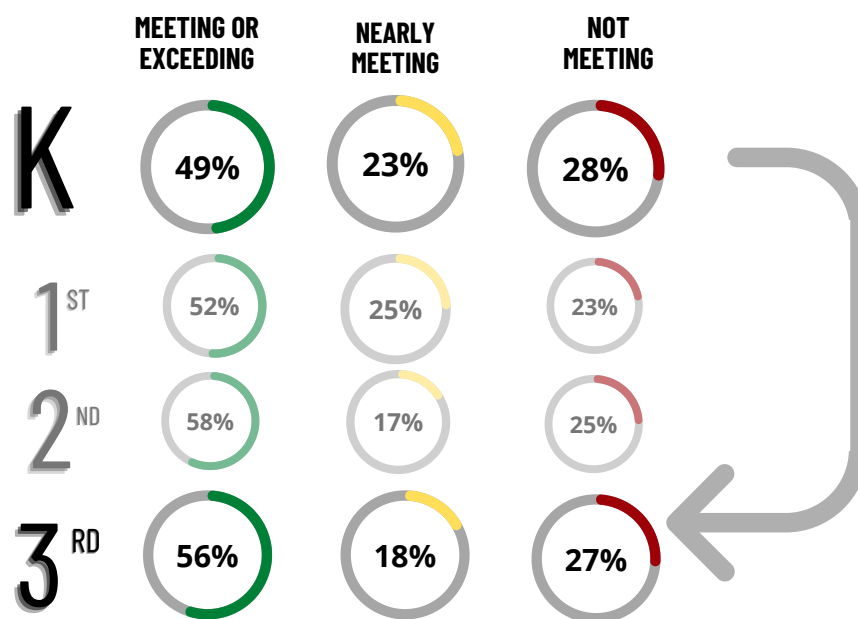

PRELIMINARY  
STATE TEST SCORES

## EARLY LITERACY FINDINGS

### ► BEGIN BEHIND, REMAIN BEHIND IN READING

We have found that students who score below grade level in kindergarten will very likely also score below grade level in subsequent school years.

### ► READING AT GRADE LEVEL MEANS ONE IS LIKELY TO ACHIEVE AT GRADE LEVEL ON STATE TESTS (ELA AND MATH)

The data overwhelmingly suggests that scoring "meeting" or "exceeding" standards in 3rd grade CAASPP ELA is strongly correlated with scoring "meeting" or "exceeding" standards in 3rd grade CAASPP Math.

## RESPONSES TO FINDINGS- Strategic Plan Alignment

### STRATEGIC PLAN GOAL#1

Create learning opportunities for ALL Pre-K through 8th students resulting in closing the achievement gap and culminating in personal and academic success in high school and beyond.

### EARLY LITERACY STRATEGIES

Provide Foundational Literacy Teachers on Special Assignment (ToSAs) in grades K-2 to support in-class instruction and pull-out supports for foundational literacy for Preventing Academic Failure (PAF). The assignment of ToSAs per school will be based on student assessment data.

Implement Orton-Gillingham literacy supplemental curricula for core instruction in grades K- (PAF) and for targeted and intensive instruction in grades 4-5 (Rewards curriculum).

Initiate a professional development plan that supports teachers, classified staff, and language & literacy ToSAs). Site leaders to implement foundational literacy supplemental curricula focused on grades K-2. Three days of PD for K-2 teachers at the per-diem rate.

Implement district-wide system of data collection, review, analysis, and reporting to drive instructional change. Adopt K-2 PAF curriculum-based foundational literacy assessments as the district's K-2 interim assessments.

Implement new and innovative parent education modules aimed at building knowledge related to our reading instruction.

## ROOT CAUSE #2

# ACCESS TO PRESCHOOL

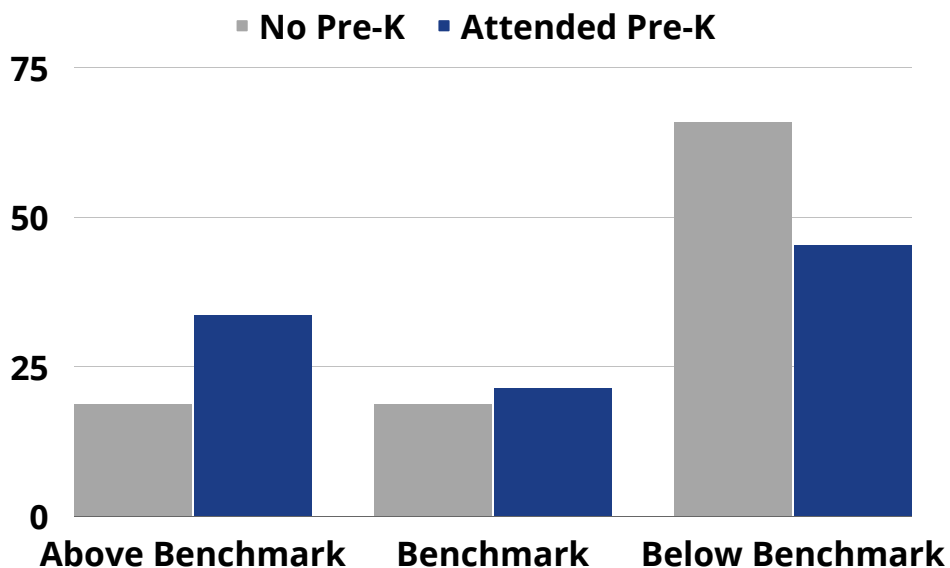

## PRE-SCHOOL RESEARCH

A 2018 study conducted by Michael Haslip (abstract included here) investigated the link between public pre-kindergarten attendance and first grade literacy achievement in the United States. Participants had either attended district-provided public Pre-K or had not attended formal or institutional preschool of any kind. Significant effects were found on each literacy measure in both the beginning and the middle of first grade. On average, Pre-K attendees were meeting reading benchmarks in the beginning and middle of first grade. Children who attended district Pre-K began first grade reading nearly one full text level higher than the no-preschool group.

Children who attend Pre-K are at less risk for reading difficulty than the children who did not attend any type of preschool. Children who do not attend any type of preschool began first grade reading nearly one text level below the expected benchmark. "Emergent Literacy Theory" (EMT) was also used by Valenti and Tracey (2009) in a similar study about the effect of Pre-K attendance on first grade literacy achievement. As they noted: "Emergent Literacy Theory underscores the finding that although many factors are important to children's reading success, including parents' education, occupation, and socioeconomic level, the quality of the literacy environment correlates most closely with children's early literacy ability" (Tracey and Morrow 2006).

*The current study examined the effect of attending public Pre-K on first grade literacy achievement from the perspective of EMT. It describes how reading-related behaviors gradually emerge before formal reading and writing is accomplished (Hall 1987).*

# STATE GUIDELINES AND THE SMFCSD PRE-SCHOOL PROGRAM

## California State Preschool Program (Ages 3-5)

California State Preschool Program (CSPP) is an age and developmentally appropriate program designed to facilitate the transition to kindergarten for three and four old children in the an educational setting. The program offers health services, social services, nutritional services, parent education and parent participation. The educational focus is on literacy, number skills, social development, health and safety.

## Eligibility Requirements - California State Preschool Program

To apply for the CSPP program a child must be enrolled in a CCRC Head Start program, have an age eligible child (3-5) and qualify under the state income guidelines. Eligibility for the CSPP program must be determined each school year in order to continue enrollment in a CSPP classroom.

A child is eligible if:

- The child is in foster care; The child is homeless
- The family is receiving public assistance or family income is below the state income guidelines.

## SMFCSD STUDENT POPULATION

Cumulative Enrollment - Socioeconomically Disadvantaged Students	2016-17	2017-18	2018-19	2019-20	2020-21
Socioeconomically Disadvantaged Students	3,942	3,968	3,900	3,744	3,600

**ELIGIBLE  
STUDENTS PER  
AGE/GRADE LEVEL**

**350 3-YEAR OLDS**  
**350 4-YEAR OLDS**

# THE IMPACT OF PROVIDING STATE PRESCHOOL TO INCOME QUALIFYING STUDENTS

The state of California is making historic investments in this very strategy. Our data demonstrates a strong relationship between access to the CSPP and future reading achievement. Income qualifying students (from households of 3 earning less than \$74,500 annually) who attended preschool greatly outperformed the income qualifying students who do not attend preschool. The district analyzed the 2021-2022 reading scores of K-2 students who enrolled in CSPP during the 2018-2019 school year to determine long-term impact.

MEETING

NOT HAVING ACCESS TO AN INCOME-QUALIFYING CSPP HAS A  
DEVASTATING IMPACT ON READING ACHIEVEMENT.

## INSUFFICIENT ACCESS TO PRESCHOOL FOR STUDENTS WITH ECONOMIC DISADVANTAGES

The district does not operate enough CSPP classrooms. Our data indicates that 700 students qualify (according to economic guidelines) for the program; however we serve less than 200 students. It is essential that a change of approach take place to expand the program. With declining enrollment across the district, there is ample space for additional CSPP classrooms.

**SMFCSD PRE-SCHOOL PROGRAM ENROLLMENT**

	2019-2020	2020-2021	2021-2022	2022-2023
<b>CSPP FULL DAY</b> Turnbull	<b>72 students</b>	<b>36 students</b>	<b>63 students</b>	<b>104 students</b>
<b>CSPP PART DAY</b> Turnbull, LEAD, FGIS, GH	<b>166 students</b>	<b>90 students</b>	<b>70 students</b>	<b>88 students</b>
<b>FEE-BASED FULL DAY</b> Turnbull, North Shoreview, Fiesta Gardens, SM Park	<b>133 students</b>	<b>88 students</b>	<b>132 students</b>	<b>112 students</b>
<b>FEE-BASED PART DAY</b> Parkside, SM Park, George Hall	<b>44 students</b>	<b>23 students</b>	<b>24 students</b>	<b>13 students</b>

## ACCESS TO PRESCHOOL FINDINGS

### ► TOO FEW STATE PRESCHOOL (CSPP) CLASSROOMS

Likely 700 students qualify for the California State Preschool Program (CSPP); however the district has served less than 150 students per year. This mismatch is partly responsible for the high percentages of students who arrive in Kindergarten behind in grade level.

### ► ENROLLMENT IN STATE PRESCHOOL CORRELATES TO LEARNING TO READ AT GRADE LEVEL

60% of students who participate in the CSPP (meeting low-income guidelines) are reading at or above grade level when they enter our district. An additional 18% of students who participate in the CSPP (meeting low-income guidelines) are reading near grade level when they enter our system.

### ► STUDENTS WHO ATTEND FEE-BASED PROGRAMS HAVE GREATER ACCESS TO A FULL-DAY PROGRAM

Our data indicates that students enrolled in the fee-based preschool programs are far more likely to benefit from a full-day program. Adversely, our students who qualify for the low-income qualifying CSPP preschool classes have limited access to a full day program.

### ► IMPLEMENT A PROGRAM EVALUATION TIED TO STRATEGIC PLAN ACTIONS AND GOALS

For our PK-8 goals to be achieved, we must implement highly-aligned instructional approaches built on the core components of the district's Strategic Plan actions. Our ability to create systemwide approaches to learning will result in academic readiness for our students.

## RESPONSES TO FINDINGS- Strategic Plan Alignment

### EQUITY GOAL

### EQUITY MEASURES

2

Reduce inequitable outcomes for ALL students and staff by prioritizing equity, access, & inclusion.

- Analyze and report on CAASPP English and Math test results, with a focus on responding to achievement gaps.
- Collect, analyze, and report student discipline data on a quarterly basis with an emphasis on increasing restorative strategies.
- Administer annual inclusion survey instrument with a focus on increasing access to the least restrictive environment.

### EQUITY GOAL

### EQUITY STRATEGIES

2

Reduce inequitable outcomes for ALL students and staff by prioritizing equity, access, & inclusion.

- Implement district-wide system of data collection, review, analysis, and reporting to investigate instances of inequity related to programs.
- Convene districtwide Inclusion Task Force responsible for evaluating data, reviewing research and recommending districtwide strategies for implementation.
- Convene districtwide Culturally Responsive Curriculum and Practices Task Force responsible for evaluating data, reviewing research and recommending districtwide strategies for implementation in 2023-2024.
- Provide Community Service Specialists to greatly increase communication with families. Based on these strong relationships, increase student enrollment in the CSPP.
- Analyze district facilities to identify locations for new CSPP classrooms in 2023-2024. CSPP is monitored for program quality, which targets a focus on the physical environment. The district has experienced a significant decrease in K-8 enrollment since 2016-2017 allowing for an expansion of the CSPP.
- Apply for 2022-2023 CSPP expansion funds. The California Department of Education is expected to announce a request for applications for the availability millions of dollars to expand CSPP services statewide. We will apply for these funds to provide full-day services beginning in 2023-2024 school year.
- Double the number of students served in full-day CSPP programs in 2023-2024. Given the clear relationship between access to preschool and the correlation to reading at grade level, our district will double the number of students served in 2023-2024. This will require an investment in additional staff to achieve this goal.

## ROOT CAUSE #3

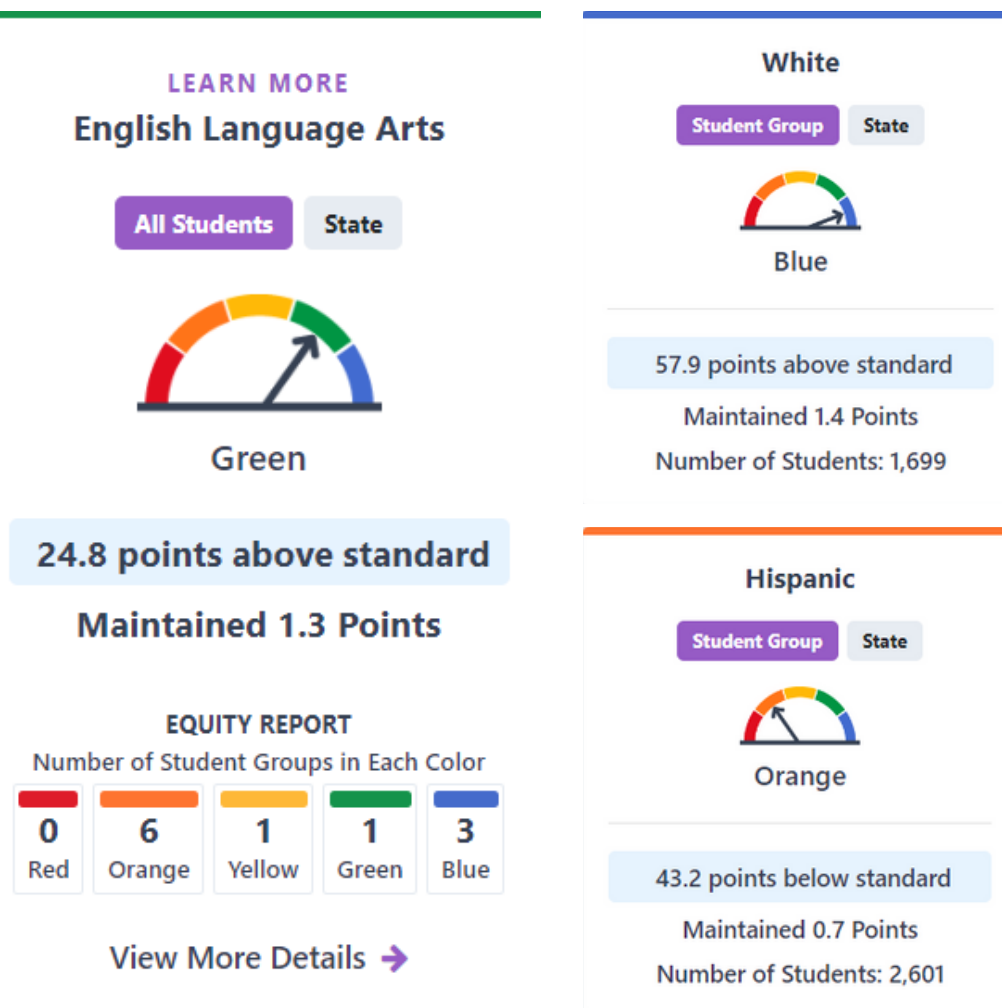

# SYSTEMIC INTERVENTIONS

## 2019-2020 SMFCSD DASHBOARD DATA

The district's 2019-2020 CA Dashboard Data demonstrates how subgroups of students perform in comparison to the state average. Our ELA data shown below shows that three groups of students scored in the highest range also known as "Blue". Six student groups scored in the second lowest range also known as the "Orange" range. The data shown on the right hand side shows that the White student subgroup performed 57.9 points above the state standard, while the Hispanic subgroup scored 43 points below the state standard. This equates to a more than 100 point difference.

Our Strategic Plan process uncovered the need for districtwide Multi-Tiered Systems of Support (MTSS) to ensure that students were given academic and social interventions early on and in a systemic manner.

## ACHIEVEMENT GAPS IN ELA

The district data demonstrates achievement gaps upwards of 40% for some student subgroups. The students who belong to these subgroups attend all 21 district schools. Our analysis of the data suggests that patterns in the data stretch across classrooms, schools, and the district. This analysis suggests that districtwide core strategies and interventions must be challenged, and adjustments must be made.

### STATE ELA TEST SCORE COMPARISONS SHOWING ACHIEVEMENT GAPS

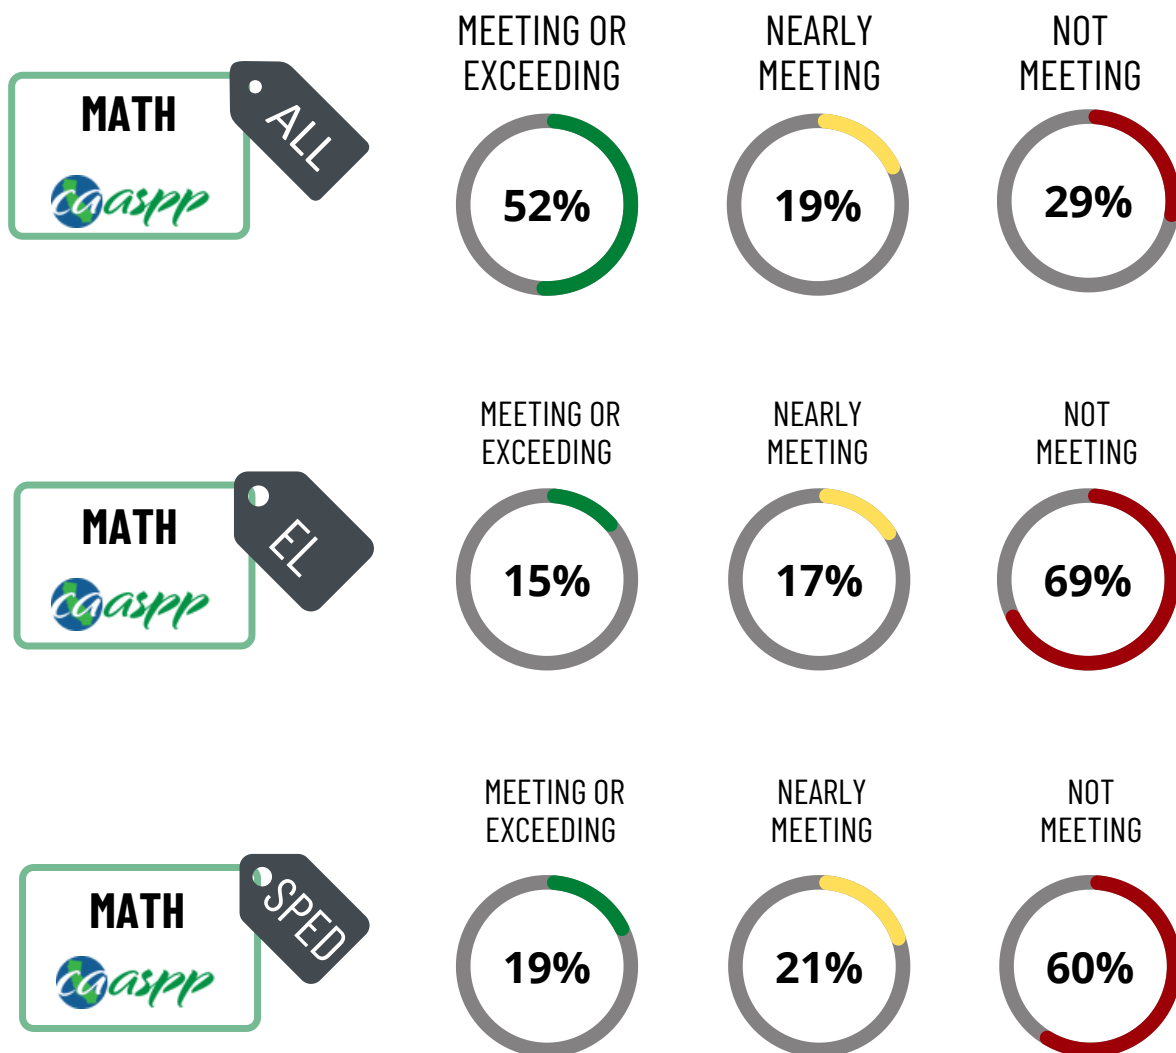

## ACHIEVEMENT GAPS IN MATH

Similar to the ELA data on the previous page, these charts demonstrate that substantial achievement gaps exist for some student subgroups. National research conducted at Harvard University found that districts that spent more weeks in remote instruction lost more ground than districts that returned to in-person instruction sooner. The study found that remote instruction had negative impacts for underserved students.

### STATE ELA TEST SCORE COMPARISONS SHOWING ACHIEVEMENT GAPS

## 2021-2022 PRELIMINARY CAASPP ELA DATA

CAASPP results are reported by the California Department of Education at the state, county, district, and school levels. State test results can be a useful tool to help understand what is happening at each level. School reports are available for “All Students.” Results are further broken down by student groups that include disability status, economic status, English Language Proficiency, gender, grade level, race and ethnicity. Identifying gaps in achievement between student groups is a critical step in improving equity.

ELA - Overall				
School	Did Not Meet	Nearly Met	Met	Exceeded

<b>Overall</b>	26%	17%	25%	33%

## 2021-2022 PRELIMINARY CAASPP MATH DATA

Growth: It is important to look at results from multiple years or points to see the “growth story.” By looking at multiple points, one can see which students are moving forward or falling behind. Scores have four levels of proficiency (Exceeded, Met, Nearly Met, and Did Not Meet). When looking at results, it is important to look at all four levels and not just the percentage of students meeting or exceeding standards.

### What happens when a group or a school doesn't make progress?

Math - Overall				
School	Did Not Meet	Nearly Met	Met	Exceeded
Abbott Middle	53%	20%	14%	13%
Audubon	10%	18%	24%	48%

Overall	29%	19%	18%	34%

## OVER-IDENTIFICATION OF LATINX STUDENTS IN SPECIAL EDUCATION

In 2020, the state of California identified our district for **significant disproportionality** in Special Education of our Latinx students in the area of SLD - Specific Learning Disability.

Disproportionality is the overrepresentation of a specific race or ethnicity identified in one or more of four areas: identification of a disability in general; identification of a specific race or ethnicity in a specific disability category; discipline; and place. The Comprehensive Coordinated Early Intervening Services (CCEIS) Plan, created two years ago, guides our response to possible causes and our corrective actions. We are required to implement ongoing evaluations via quarterly progress reports to determine the effectiveness of our plan to strategically address the issue of disproportionality. This continued overrepresentation is evidence that strategic interventions have not been uniformly implemented across our campuses in prior years. The groups listed below (Latinx, Asian, and White) are all somewhat similar in terms of overall enrollment. Notice how many more Latinx students are identified as having a "Specific Learning Disability".

*COURTESY OF THE CALIFORNIA DOE*

Specific Learning Disability	African American	Asian	Hispanic	White	Multiple Ethnicities
Students with Disabilities	4	12	215	49	17
Speech or Language Impairment	African American	Asian	Hispanic	White	Multiple Ethnicities
Students with Disabilities	3	31	151	38	21

## PROMISING DISTRICTWIDE INTERVENTIONS

The district implemented the ST Math program districtwide in 2021-2022; in prior years, ST Math was implemented at only some school sites. The district initiated the Footsteps 2 Brilliance program in February 2022. Usage reports indicate that the interventions were implemented by schools with greatly varying levels of fidelity. This creates an equity concern, given that some students will have greater access to these interventions than their counterparts. Both ST Math and Footsteps 2 Brilliance are researched-based, high-quality academic interventions.

**Footsteps2Brilliance develops listening skills by creating a language rich environment where students direct their learning.** Footsteps2Brilliance offers a unique opportunity for students to “stop language in time” by allowing them to click any element on the screen to hear it read aloud or labeled orally. For language learners, this becomes a powerful tool for exploring language in a safe environment where they can be guided by their own interests and they can repeat words, sounds, and music without limit. Students can even record themselves reading text or answering questions and then listen to their own recording.

# ST Math

**Robust Math Performance  
Gains on a National Scale**

### Effect Size on Percent of Students Proficient in Math

Effect size is a statistical term showing how meaningful the impact of ST Math is on percent of students scoring proficient or above on their state math tests compared to similar grades at non-ST Math schools.

Independent education research firm WestEd recently published the largest ever cross-state study evaluating a math edtech program on multiple state assessments. The results were greatest at the 239 schools that used ST Math® above minimum thresholds (where more than 85% of students used the program and on average completed 40% of their grade-level content by mid-April testing season). ST Math is a PreK-8 visual instructional program that leverages the brain's innate spatial-temporal reasoning ability to solve mathematical problems. ST Math's unique, patented approach provides students with more equitable access to deep conceptual learning.

## CHALLENGING THE EXPECTED DATA

We encouraged all students to use "at-home" learning programs like Footsteps 2 Brilliance and ST Math. There are those who believe that underserved students would not use these programs. Some would assume that their home lives are so complicated and challenging that devoting time to develop their academic growth would be too taxing on the family. Others would argue that some families don't value or prioritize education. These belief systems are rooted in deficit thinking that our district is actively challenging. As a district, we hired two Community Services Specialists in April 2022 tasked with contacting families at our 4 schools serving a high percentage of socioeconomically disadvantaged students. Their task was to connect with the parents, find out what support families needed at home in order to facilitate program usage and track student progress. The graph below shows the data for the program usage from February and March 2022 in gold. The graph then shows program usage for April 2022, after we hired the two Community Services Specialists tasked with helping families access the program. Our schools serving a high percentage of socioeconomically disadvantaged students became district leaders in program usage.

## DISTRICT DATA RELATED TO MATH BOOST

The SMFCSD capitalized on the initiation of the September 2021 Math Interim Assessment to identify struggling math performers. These students scored "Not Meeting Standards" on this test. The district chose to create a districtwide tutoring program. The design was for the program to provide these students a short-term, targeted "boost" program to strengthen key skills. There was also hope that the program would build our district's capacity to repeat this boost model after every district assessment. The program operated for one hour after school, three times per week, for 4 weeks. It took place in November 2021 and again in March 2022. The district ensured that these classes would serve no more than 15 students to ensure high levels of support. Instruction and tutoring content was prepared by central Math ToSAs in consultation with teachers. The elementary program involved the use of Online ST Math and middle school Math Nation. What were our results?

**SMFCSD K-5 MATH BOOST**

Math Boost is an after school math program designed to "boost" students' conceptual understanding & confidence in math by attending to their unfinished learning.

**4-Week Focused Boost!**  
Starting November 29, into January

- 3 days per week
- 45 minutes sessions
- Up to 15 students per class
- Single or cross grade level groups: K-2 or 3-5

**Math Boost Sessions Schedule**

Snack & Check in  
ST Math, Jiji Math Talks, Counting Collections, Math Games  
Reflection and Closure

**Staff Trainings for Math Boost**

- ✓ **Asynchronous:** ST Math Training for beginner (1 hour) and experienced users (30 mins)
- ✓ **In Person:** Math Boost Program Training with Math ToSA Team (1 hour)

**38 OUT OF 313**  
**MET OR EXCEEDED STANDARDS IN MATH**

**97 OUT OF 313**  
**NEARLY MET STANDARDS IN MATH**

**178 OUT OF 313**  
**DID NOT MEET STANDARDS IN MATH**

## DEEPER DATA ANALYSIS

The data demonstrates that many students who participated in Math Boost demonstrated academic growth on the State CAASPP exam. In our district, we look more deeply into the data to ask why others didn't demonstrate the same growth. We analyzed achievement by school, income levels, home language, special education status, and English language development level. The data clearly demonstrate the huge differences in demonstrated growth among these subgroups of English learner students suggesting that our Math Boost program requires adjustments in strategy to produce better outcomes for students with "moderately, somewhat, and minimally" developed language skills.

### STUDENTS WITH "WELL-DEVELOPED" LANGUAGE SKILLS

### STUDENTS WITH "MODERATELY -DEVELOPED" LANGUAGE SKILLS

### STUDENTS WITH "SOMEWHAT OR MINIMALLY -DEVELOPED" LANGUAGE SKILLS

# SYSTEMIC INTERVENTIONS FINDINGS

## ► ST MATH & FOOTSTEPS 2 BRILLIANCE SHOW PROMISING RESULTS

We have data from the 2021-2022 school year that strongly suggests a positive correlation between Footsteps 2 Brilliance and ST Math with improved achievement on State exams. Schools with high-levels of program implementation showed more growth among their underserved student subgroups.

## ► DISTRICTWIDE INTERVENTIONS SUCH AS MATH BOOST ARE MAKING A DIFFERENCE

We have data from the 2021-2022 school year that strongly suggests a positive correlation between participation in the district's Math Boost tutoring program and improved achievement on State exams. The tutoring program was designed by district-level content area experts and provided to students who demonstrated significant need on a district formative assessment. In initiating this program, the district foreshadowed the 2022-2023 strategies that will come to define our cyclical teach, assess, reflect, intervene and re-teach process.

## ► SYSTEMIC INTERVENTIONS REQUIRE DEEP ENGAGEMENT WITH UNDERSERVED FAMILIES TO UPEND EXPECTED RESULTS

Our 2021-2022 efforts during the months of March - June have helped us calculate the impact of devoting classified staff members to the task of connecting with parents. When families were encouraged to use our intervention programs via email and the district website, schools with high percentages of underserved students demonstrated minimal program usage. When the school district assigned new Community Services Specialists to begin connecting with families, establishing trust, explaining our programs and monitoring student use, schools with high percentages of underserved students experienced huge gains in program usage. Our title 1 schools became the district's leaders in program usage.

## RESPONSES TO FINDINGS- Strategic Plan Alignment

### EQUITY GOAL

### EQUITY STRATEGIES

- The district is moving forward with creating 4 full-time CommunityS services Specialists positions with a focus on creating genuine relationships with families to ensure enrollment in our systemic interventions.
- Initial implementation of SST data generated for site teams to align with site and district reporting and teacher data reviews. Monitor and review data of SST recommendations and their outcomes. Communication about the data is shared at least quarterly between the MTSS site team and district MTSS team.
- Convene meetings of district Ed Services and Student Services Directors in September 2022 and February 2023 to analyze K-8 academic assessment results with an equity focus.
- Measure student and school progress in relation to CCSS/NGSS standards. Create equity indicators of student growth and school improvement.
